to who it may concern,
The arrival of XM radio has been the saving grace to the music listener, no longer are we subjected to the clear channel version of what I should listen to! with the FCC allowing the clear channel dominance of the air waves. XM radio is great and I don't want it to go away, can't we all just get along their is enough listener's for everyone.

The FCC needs to but out, at last I can get real traffic updates at the touch of a button, this is great in LOS ANGELES the worst traffic in the nation! LEAVE XM ALONE WE NEED TRAFFIC UPDATES ALWAYS.....DON'T FORGET WHO PAYS YOUR WAGES THE TAX PAYER!!
